

## **OMAA 2025 Conference Program**

Theme: Independent and working together

Our conference aims are to empower every professional involved in Orientation and Mobility who are critical to quality of outcomes for the individuals at the heart of O&M, from O&M Specialists to others supporting service provision.

In the Orientation and Mobility field, work independently and together involves O&M Specialists working in different countries, but united as a unique profession, as Australasian professionals, members of OMAA, and those associated with us, supporting one another. Work together involves working collaboratively with clients, family, clients' supports, team members and other professionals involved in vision rehabilitation services.

As we explore research, new ways of practice, emerging technologies for the future of the O&M profession we will enhance the profession as we move forward.

Conference dates: 14-15 March 2025

Conference Venue: Australian Hearing Hub, University Drive, Macquarie University (Sydney Australia)

Conference Accommodation: Options available at this link

# **Conference Day One: Friday 14 March 2024**

8:30am Registration 9am Official welcome Committee  9:30 Keynote 1 Daniel Kish  10:30 Morning Break  11:00 Session 1 Seeing Eye Dog Youth Program – innovation to empower young people Brooke Anderson  11:25 Session 2 Understanding the Footpath challenges and the impact of losing traditional environmental design clues for people who are blind or have low vision.
